Audio and Video Technology

The possibilities are endless. Use AV solutions in a lobby to highlight your employees, products, and technologies or create a unique and exciting space for presentations or entertainment.

Background and Foreground Music Systems

If you're looking for high-quality background music or need a crisp, clear, bright sound for entertainment or presentation, Smithcurl will give you the maximum amount of sound with the minimal amount of aesthetic intrusion.

IP

Video over IP

Smithcurl now offers this cutting-edge technology. TV over IP is a solution to allow multiple broadcast quality TV channels over your IP network. Now you can get up to date information – live at your desk.

Satellite TV Experts

Whether in a conference room, bar, gym, bank, or office, Satellite TV offers your customers the best in entertainment and your employees the up-to-the-minute information they need to make informed decisions.
